We had a good conversation. Jennifer Eberlien, who I understand was also in the meeting with you yesterday, was also on the call.

I filled him in on what we are doing and what we have received from the Forest Service, and he wanted to be copied on all future requests (as do Klippenstein and Clovis, who are in the immediate Office of the Secretary at USDA). Dan had no problem with that arrangement, or with the person at the Forest Service I have been working with.
